**DEFINITION:**

**Construction/Demolition Waste** - waste building materials, packaging, and rubble resulting from construction, remodeling, repair, or demolition operations on houses, commercial buildings, and other structures. Such wastes include, but are not limited to, masonry materials, sheet rock, roofing waste, insulation (not including asbestos) scrap metal, and wood products. Uncontaminated concrete, soil, brick, old or weathered waste asphalt paving, ash resulting from the combustion of untreated wood, rock, and similar materials are excluded from this definition. (335-13-1-.03(31)).

**Industrial Waste** - Solid waste generated by manufacturing or industrial processes that is not a hazardous waste regulated under Subtitle C of RCRA (as defined in 335-13-1-.03(63)).
